

Electrician Job Spec

Location: Norwich, Norfolk, (UK-wide travel may be required, fully compensated)

Salary: Competitive, based on experience

Hours: Full-time 40 hours a week

Reporting to: Contracts Manager

About Us

Are you an experienced Electrician or Electrical Engineer looking for a career in the commercial/renewable energy sector? Would you like to expand your expertise in a forward thinking and fast-growing industry?

We are part of a national company with ambitious expansion plans and a commitment to sustainability.

About the Role

This role offers a great opportunity for an electrician with industrial/commercial experience to transition into the renewable energy industry. Full in-house training on solar PV and battery storage systems will be provided, with opportunities for career progression.

Key Roles /Responsibilities

- Installation and commissioning of commercial solar PV, EESS and EV electrical systems.
- Work with LV AC and DC supplies, ensuring compliance with industry standards.
- Installation experience with cable tray, trunking, SWA, and CAT6 cables.
- Conduct testing and inspection, ensuring systems meet regulatory and safety standards.
- Work both independently and as part of a team to deliver high-quality installations.
- Follow health & safety protocols and best practices on-site.
- Assist in troubleshooting and resolving electrical issues during installations.

Essential Qualifications & Experience

- Level 3 Electrical Qualification (or equivalent) JIB Gold Card Holder.
- BS7671 – 18th Edition certification.
- Experience in cable management (tray, trunking, SWA, CAT5e cables).

- Strong communication skills, with the ability to work well in a team or independently.
- Excellent organisational and planning abilities.
- Full UK driving licence and the right to work in the UK.

Desirable Qualifications & Experience

- Testing & Inspection certification (e.g., 2391/2392/2394/2395).
- Experience working in the renewable energy sector Solar PV, battery storage, or EV charging advantageous).
- Familiarity with G98/G99 grid connection requirements and BS7671 electrical regulations.

Why Join Us

- Be part of the growing renewable energy sector driving us to a sustainable future.
- Excellent opportunities for career growth and professional development in a rapidly expanding company.
- Work in a collaborative and supportive environment, with ongoing industry training provided.
- Competitive salary, based on experience and qualifications.

If you're a qualified electrician based in Norwich or Norfolk and want to further develop your career in the renewable sector we can wait to hear from you.

We are an Equal Opportunity Employer and welcome applicants from all backgrounds, regardless of gender, race, ethnicity, religion, disability, sexual orientation, or age. Diversity is at the heart of our company culture, and we invite you to be part of it.
